

Introduce A Girl To Engineering: Engineers Informational Forum Booth Registration Form

What is Introduce A Girl to Engineering (IAG)?

IAG is a program that introduces young girls in middle school with a strong interest in math and science to the various fields of engineering. This special event rolls into its eighth year bringing together middle school students from around the state of Georgia to interact and learn from established women in the fields of engineering and technology.

Fill out the form below and team with us on investing in the future of math, science, and engineering with our young women of Georgia.
